Summary

A native Russian speaker, fluent in English, I am excited to serve communities as an interpreter.

My last role in the Snohomish County Head Start allowed me to facilitate communication between English-speaking program coordinators and Russian-speaking families with limited English-language proficiency.

I have foundational knowledge of Medical Terminology (thanks to several completed Allied Health courses), which can be proven by the HC-PICSI test results, my college transcripts, and completed jobs for the Everett Clinic sites.

Experience

Russian-English Interpreter

LanguageLine Solutions

Jan 2024 - Present (2 months)
